

Shipwire in Australia

Shipwire's Australia fulfillment center is the newest in our global network of warehouses (Tilburg, Netherlands expected 2015). Its location supports international and domestic merchants, enabling them to take advantage of Australia's economy and expanding their business options in the Asia-Pacific market.

Located in Eastern Creek, 40km from the Sydney Airport, the facility is twice the size of the Melbourne Cricket Ground and is the country's largest distribution center. Shipwire Australia supports domestic and international shipping, specific carriers and service levels available upon request.

Warehouse specifications:

40,000 sqm facility

5,000 m of automated conveyors and high-speed sorters

Automated carton assembly and sealing for efficient and damage-free shipping

Technology Asset Protection Association (TAPA) security rating – the highest industry security rating globally

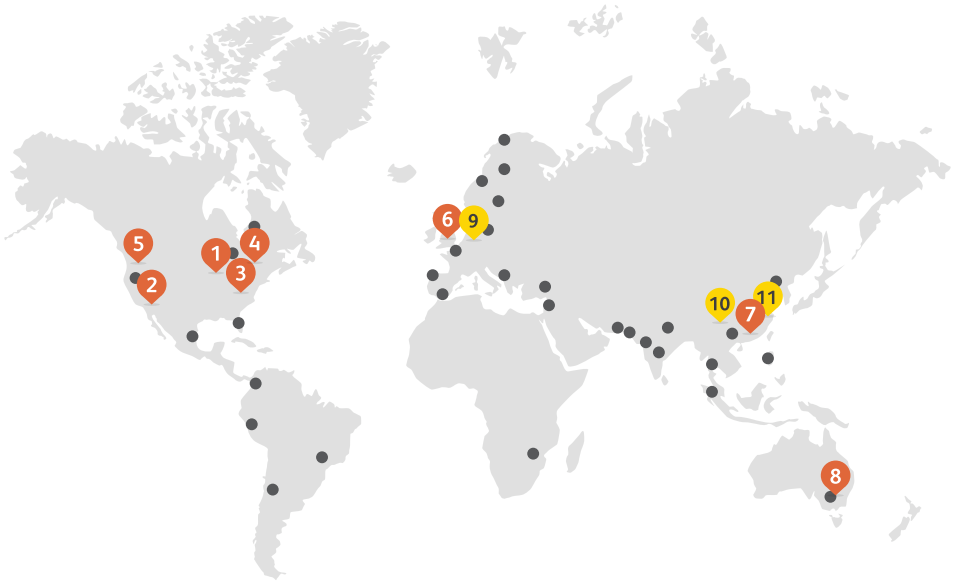

Grow domestically, expand internationally

Shipwire offers an order fulfillment technology platform and warehouse network specifically designed to support the growth of e-commerce companies by enabling fast and flexible shipping domestically and internationally.

In addition to best-in-class order management software and APIs that makes it simple to track and manage inventory, Shipwire provides access to strategically located fulfillment centers, making it easy to reach customers in markets around the world.

Use Shipwire's facility near Sydney to fulfill domestic and international orders, and for the most cost-effective solution to international expansion, ship to customers in fast-growing foreign markets by storing and shipping inventory from Shipwire's warehouse locations abroad.
